

This bill is silly. I subscribed to Satellite radio BECAUSE I could not get good local stations. It is the major broadcasters fault that I went to this type of format. I am so thrilled that I did. I get pretty much everything that I need from Satellite radio and if I want to listen to the local news, I have that option.

Removing or restructuring Satelitte radio would remove my opportunity of choice. Being able to choose what we want to do within a legal framework is what this country is built on.

Don't change a good thing.

Let's worry about our men and women in a war zone, or worry about the homeless, or worry about why I have to put my kids into private school because the class sizes in a public school are too large. Worry about the important things in life.

Thank you.
